## Welcome to Kristinehamn!

Kristinehamn's strategic and attractive location on the shore of Lake Vänern makes it interesting for many visitors; along with the fact it is situated in Värmland - makes it even more exciting. When Picasso chose Kristinehamn as the place for his unique sculpture, he picked a place where culture is firmly rooted. Kristinehamn's Art Museum has held exhibitions by Picasso, Miro and Alvar Aalto - to name a few famous artists. The museum also offers an old-fashioned country shop that certainly brings many fond memories alive. It's full speed ahead for a few days in August

when Kristinehamn is transformed into Little Monaco when go-cart competitions are held in the town center. Why not take a trip on the world's only floating city arms, the Christine af Bro? The vessel, which is of interest both culturally and historically, is based in the guest harbor. The best way to experience our lively archipelago is by islandhopping with the M/S Hulda. Choose between wonderful sandy beaches and rocky cliffs: the choice is yours!

### See and Do

#### City

We, the people living in Kristinehamn, feel we are the luckiest in the world - with the inland sea Vänern, the beautiful archipelago and splendid bathing in the area, is an everyday occurrence for us. Kristinehamn started with a bridge and harbor. Due to its location, the area continued to grow and by 1642, Kristinehamn became a city. Due to the towns position as a center for the Bergstagens Iron and Tree Export, one of Sweden's first railways were built between Kristinhamn and Sjöändan - the first connection with the inland sea. Here you will find deep forests, agriculture, and a large variety of birds. As you stroll along the city center, you will experience the beautiful cultural environment which is preserved in several places. Kristinehamn is not only close to the water - but close to everything. Located just 25 miles from Stockholm, Gothenburg and Oslo, you can take the train (X2000) and within 40 minutes you can reach two airports in Stockholm. We in Kristenhamn, which is about 24,000 of us, would enjoy sharing our high quality of life - which is what you will find in Kristinehamn.

#### Fresh Water Fishing

There is no better place in Europe where you can find such a wide variety of our popular fresh water fish like you can in Lake Vänern and the surrounding lakes. In particular, troll fishing for salmon and trout has seen a tremendous breakthrough in the past few years, not only in Sweden, but internationally as well. Besides Lake Vänern, there are many smaller fishing

lakes in the area. You can catch everything from Salmon, Brown Trout, Pike and Perch. Kristinehamn's Tourist Bureau can provide you with license and area information.

#### Hökens Trolling Charter

Welcome aboard for a splendid fishing trip on Lake Vänern: Choose the fishing trip that suits you best! We at "Trolling Charter" can organize a package especially planned for you and your party. Overnight accommodation is available either on board or in a cabin that sleeps 2-8 people.

### Nature ARCHIPELAGO

The archipelago in Lake Vänern, which is really an inland sea, always has something for all the family. It has Europe's best fishing grounds for salmon and trout, wonderful boating life and unexpected "cultural treasures", as well as making a beautiful setting for events, etc. Kristinehamn offers many ways of accessing Vänern, and you can experience the lake's esplanade by foot, cycle, car, bus or even inlines. Paddle around the shoreline in a canoe or kayak. Sit just a few meters from the shore of the lake at one of the cafés or restaurants and enjoy the sun. Below, is information pertaining to which islands are included in the tours.

#### Väner Islands

##### Vålön

Take the ferry (M/F Vålön or M/S Hulda) to Kristinehamn's largest island. Arrive at "Sandvikarna", which has one of the most finest sandy beaches in the archipelago. A very popular place for families and children.

It has a play area, washing room, changing rooms, information boards, woodlands and grilling areas. Follow the path for 3 km and you will arrive at the narrow footbridges leading across to the islands of Kalvön and Sibberön.

##### Kalvön

Take the ferry (M/S Hulda) or walk across from Vålön. Kalvön has a bathing area with a rocky beach, washing rooms, resting/barbecue area with a large shelter and information board for visitors.

##### Sibberön

Walk over to the nature reserve from Kalvön. Bathe from the rocks or enjoy the sandy beaches, woodlands and open fields - where you can pitch your tent and make a fire. There is a free, partially furnished cabin on the island that can be used on a first come, first serve basis.

##### Alvön

The M/S Hulda takes you to Lake Vänern's beautiful rocky beaches. Alvön has grill areas, shelters, rest areas, washing rooms and information bulletin boards.

##### Långön

Take the ferry (M/S Hulda), find your own rock and take a dip on Långön's own "Little Riviera". Shelter from the wind can always be found, whatever its' direction! There are lots of open spaces where you can pitch your tent overnight. Långön has Washing Rooms, shelter, resting area, information boards and barbecue areas.

### Parks

#### Park Walks

Thousands of beautiful flowers bloom in public flower beds and boxes in the spring and summer. Järnvägsparken, Brogårdsparken och Vågparken are examples of parks where the residents of Kristinehamn and tourists alike can enjoy the floral splendor. In the beginning of summer, you can read more about the yearly summer flowers on our website.

## See and Do

### Worth Seeing

#### Carl Nesjar's All-year Round Fountain

Carl Nesjar, whom is one of Norway's most famous artists, was commissioned by Pablo Picasso to build his monumental concrete sculpture in Kristinehamn's archipelago in 1965. Nesjar is a versatile artist and perhaps most famous internationally for the 15 year period when he was responsible for erecting a number of Picasso's works of art throughout the world - and for his own all-year round fountains made of steel and aluminum. This particular Carl Nesjar fountain runs all year round, so its appearance varies according to the seasons. Kristinehamn's municipality had the pleasure of inaugurating this 4 meter high, stainless steel monumental creation in the summer of 2006. The fountain is situated in the park close to the old harbor in central Kristinehamn, (beside Ölme Diversehandel and Café).

#### Kristinehamns Art Museum

The art museum is located in Marieberg, an area of natural beauty on the coast of Lake Vänern. A varied selection of art is shown, which includes international, Swedish and local work. There is place for both the conservative and for the more profound. The museum also has a café, conference facilities and a creative workshop for children.

#### The Picasso Sculpture

"OUI". Yes. With these three letters on a piece of paper, Pablo Picasso confirmed that he had chosen Kristinehamn as the place for his monumental sculpture, 15 meters high. The pillar - 1.65m in diameter - has two "wings", one of which weighs about 8 tons and has a span of 6x4 m. The sculpture is made of "natural concrete", which meant that liquid white cement was injected into a mold filled with stones. The artistic decorations were then sandblasted onto the surface: this is so hard that it should last for 2,000 years! The sculpture was constructed by the Norwegian artist Carl Nesjar, whose progress was followed continuously by its creator via films and photographs. The Picasso sculpture in Kristinehamn is the largest existing work of art of this type by Picasso, and has attracted considerable attention both in Sweden and internationally. The Picasso Sculpture is a navigational mark and a greeting for the boats reaching the harbor.

Välösundsvägen 161

#### Ölme Heritage Center

The pavilion in Lundholm Park, next to Ölme church, is a summer house from the 18th century. The storehouse has an exhibition of old agricultural tools. Näbben – Soldattorpet Holmenstugan has furnishings and uniforms from the 19th century. Equipment and wagons are on display in the barn. Sunnäs Post and School Museum houses an old post office, classroom and staff room. The classroom displays furniture, books and school materials from the time when the school was in use, i.e. between 1878 and 1950.

#### Ölme Variety Shop and Café

Enter the shop and step back 100 years in time! Feel what it must have been like to go shopping at the end of the 19th century. The store now sells goods from Klässbol's linen mill, rough homespun ("vadmal") clothing from Micklagård, typical country food from Värmland, local handicrafts, boiled sweets and much more. This is where the "Lusseasken" can be found, the unique piggy bank that has given Kristinehamn its nickname, "Lusasken". Enjoy a cup of coffee and a freshly baked cake.
