Welcome to Österlen

It is said the sky is a little closer in Österlen. The sky and the sea blend to form a sort of celestial sea. Maybe it is this celestial sea, which makes the light so special and attracts many guests to the Southeast of Skåne.

Ystad, the region's hub in terms of communications and the charming medieval city attracts many visitors whom wants to follow in the footsteps of the fictional detective Kurt Wallander. Österlen is slow paced which

is perfect for private relaxation, but even many companies also choose to conduct their meetings here in the quiet conference environments. The destination is marked by a rich cultural life and offers many nature experiences. Do not miss the wonderful beaches that are waiting for all of us who enjoy to go barefoot.

A Warm Welcome!

See and Do

City

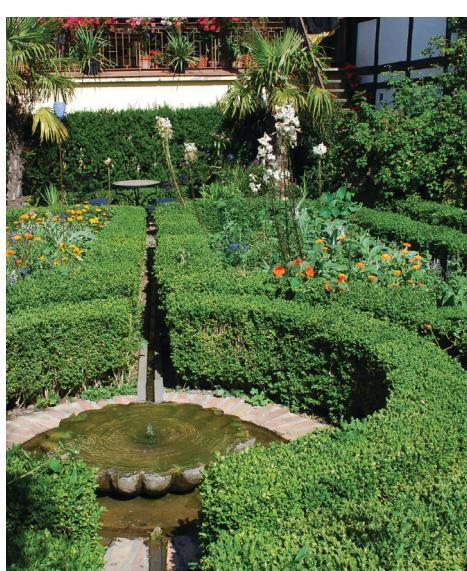

See & Do

Agriculture is one of the strongest industries in the area due to the mild and humid climate and combined with the fertile soil. Other important industries are fishing and tourism. The tourist season starts slowly with the antique fair in Brösarp during the early spring. Then, the season takes off when Konstrundan (Art Show) starts during Easter. People come from far and wide to visit the craftsmen, artists and designers in their studios. We have five golf courses in Tomelilla, Stiby, Ystad and two in Vik. Gardening, Health / SPA, cycling, horseback riding, culture, food and nature experiences are just some of the other popular tourist activities.

Österlen has five golf courses - Tomelilla, Stiby, Ystad and two courses in Viikki. Gardening, Health / SPA, bicycling, horseback riding, culture, food - and nature experiences are other popular activities. Harvest Celebrations and markets are celebrated according to tradition, and has good food and drink which has become a hallmark of Österlen. The Scanian culinary traditions, combined with a creative crossover cuisine and the locally grown products are a chefs delight, and creates an unforgettable unique culinary experience.

Apple Market. Photo: Visitosterlen.se

Apotekarns Garden. Photo: Visitosterlen.se

Enjoy a picnic on the beach or dinner at one of the gourmet restaurant's - it is just to pick. During the Matrundan (A culinary adventure) in May, the area offers food, accommodation and activities in culinary tourism. Normally, in the middle of May the fruit trees are in bloom and is a wonderful experience, especially in the Kivik area.

The countryside has many farms and businesses where you can find handmade and unique products. Many combine their store operations with a gallery or a café. In Tomelillam, there is a low-priced department store called Bo Ohlsson. In Tomelilla, Simrishamn and Ystad there are many fine shops, cafes and restaurants and you can stroll around and enjoy a pleasant small town's atmosphere. Every Saturday there is a large flea market located next to the cemetery in Simrishamn. Check the

newspapers for more information on the flea markets - the flea market tradition is an important part of the area's shopping culture.

Renting a cottage is popular and several campsites have great locations which also makes camping in the area very popular. Or, if you would prefer to crawl into a warm bed there are many castles, hotels, bed and breakfast's or hostels to choose from in the area. During the high season, accommodations can be difficult to find, so make your reservations in good time.

Geographically, Österlen goes around the southeast on highway 19 between Brösarp in the north and down to Ystad in the south, which either in whole or part collectively includes the municipalities of Simrishamn, Tomelilla and Ystad. Enough said about
